Turn a digital presence into a working business.

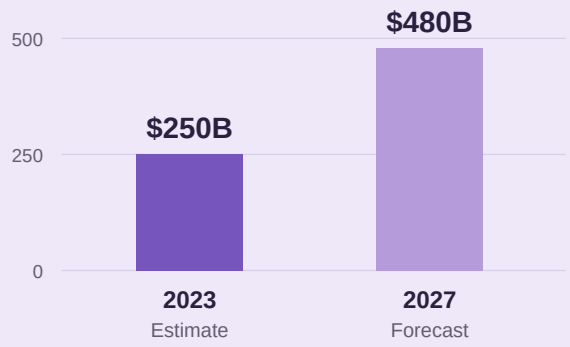
AI-assisted storefronts. Connected tools. Creator-powered discovery.

THE MARKET-FIT THESIS

For non-technical service professionals, local businesses and independent creators: one place to attract customers, launch with AI help and manage the work that follows.

A growing creator economy

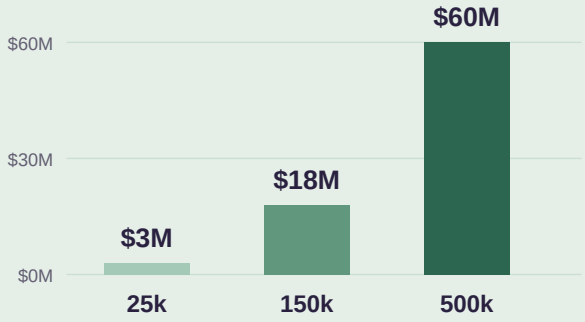
Historical outlook / USD billions [1]



1.9x 2023-to-2027 growth in the source forecast

Revenue potential at scale

Annual Pro subscription scenario / USD



Pro accounts at the starting $120 annual price

Illustrative scenarios - not current ARR

LIVE PRODUCT / HOW VALUE CAN COMPOUND

01 / ATTRACT
Free space
Story, booking + contact

→

02 / ACTIVATE
Spacey AI
Draft setup + workflow help

→

03 / OPERATE
Business Tools
Contacts, jobs + invoices

→

04 / DISTRIBUTE
Growth programs
Referrals, boosts + creators

Free essentials. Account Pro includes all available tools and more Spacey credits.

WHO IT FITS

Service owners + creators

Example: a lawn-care owner can launch with Spacey, collect enquiries and add customer, job and invoice tools as needs grow.

WHY IT CAN WIN

Presence + operations

Spacey lowers the setup barrier. Business Tools extend usefulness beyond the first visit. Sharing programs create more discovery paths.

WHAT WE PROVE NEXT

Product-market fit

Measure first-space activation, verified Pro conversion, 90-day retention and acquisition payback. Market fit and economics remain to be validated.

Build the next chapter with us.

Partner on distribution, sector workflows or a pilot cohort.

Investment discussion: activation, retention and sustainable subscription economics.

[1] Goldman Sachs Research, 19 Apr 2023: $250B estimate; $480B forecast for 2027. Broad creator-economy context, not UNLISPACE's software TAM. Revenue model: Pro accounts x $120/year; adoption and spend are assumptions, not forecasts, current traction or company valuation. Gross subscription revenue excludes taxes, costs and campaign funding.
